CHEMPHARM LABORATORY FURNITURE AND ENGINEERING SOLUTION

Chempharm is a leading company specialized in the design, manufacturing, and installation of high quality laboratory furniture and other internal products. We are in market for more than 3 decades and have been associated with National and International research labs for various products designed, manufactured and customization by the company.

After years of experience working with both conventional and specialised material, by our team with the latest manufacturing techniques and state of the art manufacturing set-up. Our team prides itself on its traditional craftsmanship and attention to detailed customer requirements. We are committed to Providing the best of technology, using environment friendly material and processes.

TURNKEY SOLUTIONS PROVIDER FOR ALL KIND OF LABORATORIES

We do complete Laboratory Design, which includes

- Lab Interiors
- Lab Furniture
- Clean Room
- HVAC
- Utilities
- Safety Devices
- Electrical and BMS

OUR PRODUCT PORTFOLIO

A full range of furniture systems is available allowing co-ordination between all other laboratory system to create a totally flexible approach to furniture, storage and specialized laboratory needs.

Our Laboratory Furniture is modular in design, it can be customized based on the customer requirement, thereby offering both mobile and fixed storage where ancillary specialized storage items such as fume cupboards, giving an integrated appearance.

In addition there is a full range of related storage and ancillary items to equip your laboratory completely.

Our laboratory furniture offers total co-ordination across our Fixed, Cantilever and Leg frame Systems allowing interchange and permitting the user to mix and match.

The materials and components we use are of the best quality with specific finishes available for general purpose installations and highly specialized requirements.

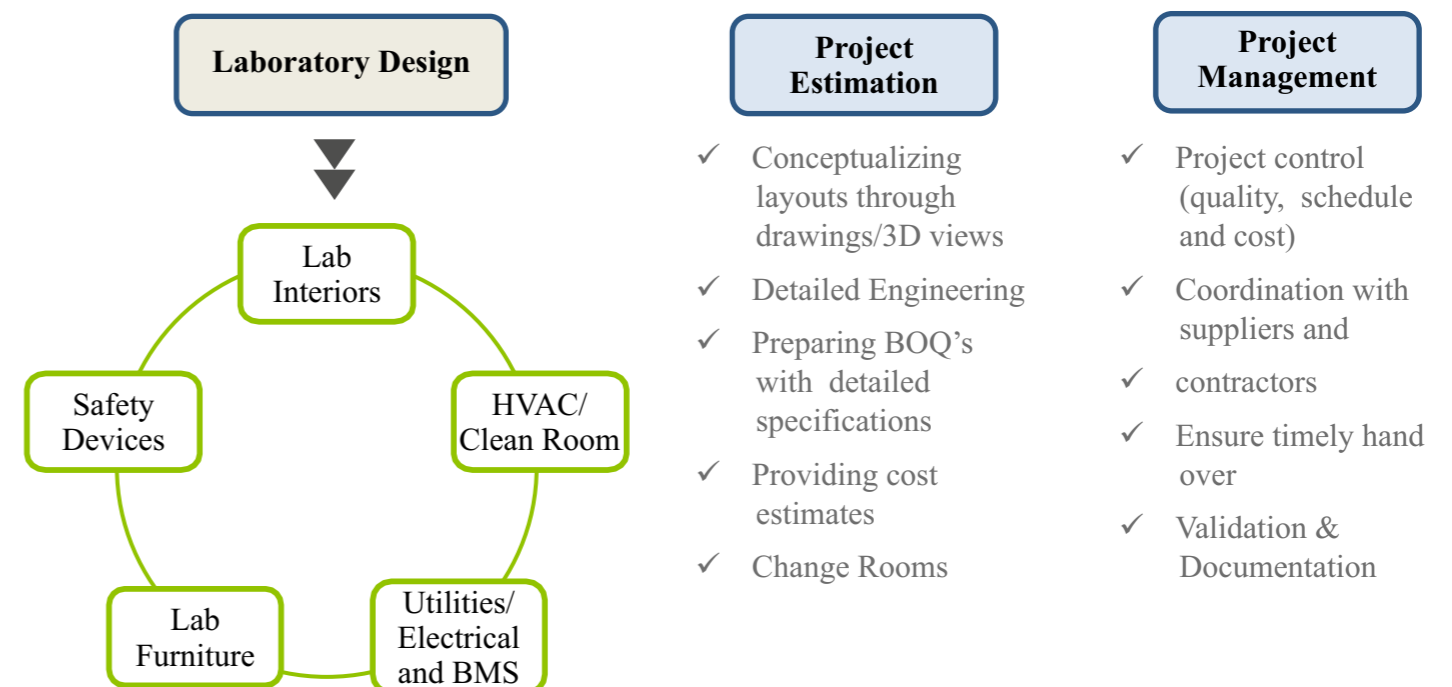

- Floor, Wall & Island Cabinets
- Reagent shelving/Racks
- All types of storage units
- Special Cabinets
- Fume Hoods
- Bio Safety Cabinets
- Laminar Flow
- Pass Box
- EDC Mats

What we offer :-

- Complete Laboratory Design
- Project Estimation
- Project Management

LIST OF CLIENTS

Floor Units :-

Modular is design made of high quality CRCA with Powder Coating / Stainless Steel, with various width starting from 450mm to 1050mm, height 750mm and depth 530mm.

Wall Units:-

Modular is design made of high quality CRCA with Powder Coating / Stainless Steel, with various width starting from 450mm to 750mm, height 600mm and depth 280mm.

Regent Racks :-

Modular is design made of high quality CRCA with Powder Coating / Stainless Steel, with Shelves and provision of Electrical Sockets and Plumbing Fixtures.

Resistant Worktops :-

Being part of the most important part of the laboratory furniture, we offer variety of worktops to best suit the laboratory depending on its type and usage:

Therefore, we choose the worktop that will meet our clients needs, we choose worktops for their durability and functionality for each type of furniture we design and build.

Anti-vibration Tables Worktops :-

Chempharm anti-vibration tables are heavily weighted pre-fabricated with rubber dampers to minimize the vibration for efficient usage of instruments for accuracy of reading.

Tables also comes with drawers.

Laboratory Storage Cabinets :-

These are specially designed storage cabinets with shelves for storages of toxic, non-toxic, corrosive and pharmaceutical laboratory solvents, reagents and other chemical inside the laboratories.

LABORATORY EQUIPMENT'S

Laminar Flow Cabinets:-

Chempharm LFC are manufactured with stainless steel and CRCA powder coated with no gaps and joints where spores might collect.

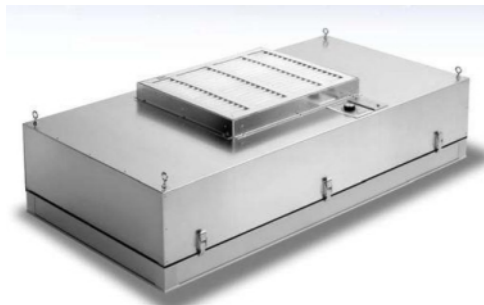

Bio-Safety Cabinets :-

Chempharm Bio-Safety Cabinets are manufactured with stainless steel and CRCA powder coated with no gaps and joints where spores might collect.

Fume Hoods :-

A fume-hood is a ventilated enclosure in which the gases, vapors and fumes are contained, an exhaust fan situated on the top of the laboratory building pulls air and airborne contaminants through connected ductwork and exhaust them to the atmosphere.

Fan Filter Units:-

Chempharm fan filter unit (FFU) is motorized air filtering equipment with HEPA filter. It is used to supply purified air to cleanrooms, laboratories, medical facilities or micro environments by removing harmful airborne particles from recirculating air.

Laboratory Doors and Windows :-

Chempharm clean room panels comes in various thickness, made from PCGI, PPGI, GI with Powder coating and SS, with In-fills of PUF, Rockwool, Mineral wool etc.

Clean Room Panels:-

Chempharm clean room panels comes in various thickness, made from PCGI, PPGI, GI with Powder coating and SS, with In-fills of PUF, Rockwool, Mineral wool etc.

LABORATORY ACCESSORIES

- Trivector Biomed LLP

R&D LABS

Birbal Sahni Institute of Paleobotany

Birbal Sahni Institute of Palaeobotany is an autonomous institute. The Institute is located at Lucknow, Uttar Pradesh, India and is a seat of higher learning in the field of plant fossil research.

We have supplied and installed "New Lab Facility which included Supply and Installation of Clean Room Wall and Ceiling Partitions, Epoxy Flooring, Fire Doors, Electrical, Plumbing & HVAC and Furniture works for their Geo-Chemistry Section.

BSL-3 LABS

Veterinary Biological & Research Institute

Veterinary Biological & Research Institute, is Serum Institute, catering to the needs of the livestock farmers in disease prevention, disease diagnosis, production of vaccines and research on emerging diseases.

We carried out the complete design, manufacturing, supply and installation of complete BSL-3 lab in the above facility which included HVAC, Clean Room, Clean Room Equipment's, HEPA and other filters, Epoxy flooring, Fire and Other Doors, Electrical and Plumbing works with minor/major civil works wherever necessary.

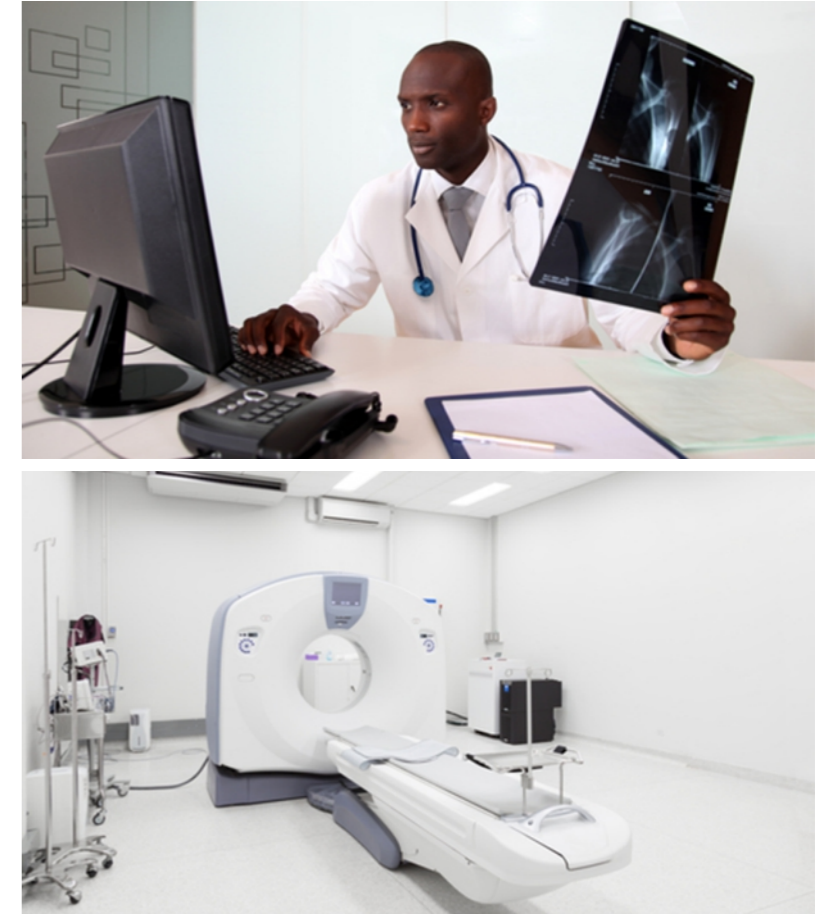

DIAGNOSTICS LABS

Me Cure Healthcare Limited, Kenya

Me Cure Healthcare Limited is a premier diagnostic company in Lagos, Nigeria. They are in-to Eye-Care, Dental Care, Cancer Management and Preventive Healthcare and other Diagnostics procedures which includes MRI Scans etc. Me Cure uses the best cutting edge technology to provide world-class services.

We have supplied and installed Diagnostics Labs which included Supply and Installation of Clean Room Wall and Ceiling Partitions, Epoxy Flooring, Fire Doors, Electrical, Plumbing & HVAC and Furniture works.

Institute of Liver & Biliary Sciences, India

Institute of Liver & Biliary Sciences, India is a premier institute established by Govt. of NCT and is an autonomous institute, under the societies act. The mission of ILBS is to become a dedicated international centre of excellence for diagnosis, management and advance training and research in the filed of liver and biliary diseases.

We have supplied and installed Diagnostics Labs which included Supply and Installation of Clean Room Wall and Ceiling Partitions, Epoxy Flooring, Fire Doors, Electrical, Plumbing & HVAC and Furniture works.

ELECTRONIC LABS

Panasonic India Private Limited

Panasonic India Private Limited is 100% subsidiary of Panasonic Japan. They have set a state of the Art Manufacturing Unit for Home Entertainment and Home Appliances in Jajjhar, Haryana.

We have supplied and installed for their manufacturing and testing facility for LED Panels which included Supply and Installation of Clean Room Wall and Ceiling Partitions, Epoxy Flooring, Fire Doors, Electrical, Plumbing & HVAC and Furniture.

Samsung India Private Limited

Samsung India Private Limited is 100% subsidiary of Samsung Corporation, South Korea. They have set a state of their biggest state of art Manufacturing Unit for Mobile phones in NOIDA near Delhi – NCR, India

We have supplied and installed Lab Facility for their manufacturing and testing facility for LED Panels for mobile phones which included Supply and Installation of Clean Room wall and ceiling Partitions, epoxy flooring, electrical, plumbing & HVAC and Other Related Furniture.

PROJECT EXECUTED :- IVF, OT AND ANDROLOGY LABS

Trivector Biomed LLP

Trivector Biomed LLP enable Indian healthcare service to give world-class healthcare equipment and services to its customers, they facilitate all interested doctors, embryologists, ICUs, OTS, Patient Rooms, Dialysis Unit, Respiratory Clinics, Day Clinics, IVF Labs, Dental Clinics and other healthcare facilities to set up and productively run their operations with latest healthcare equipment.

Chempharm has supplied and installed Facility which included Supply and Installation of Clean Room wall and ceiling Partitions, epoxy flooring, electrical, plumbing & HVAC and Furniture works.

PROJECT EXECUTED:- EDUCATIONAL INSTITUTES

Shiv Nadar University

Shiv Nadar University is a comprehensive, multidisciplinary research-focused and student-centric university offering a full range of academic programs at undergraduate, pos-graduate and doctoral level. The university is equipped with state of art infrastructure, sophisticated labs, international standard sports facilities, conference rooms, smart classrooms, auditoriums and amphitheaters.

Chempharm has supplied and installed Bio-Chemistry Lab Facility which included Supply and Installation of Clean Room wall and ceiling Partitions, epoxy flooring, electrical, plumbing & HVAC and Furniture works.
